

## LIST OF TABLES

<b>Table No.</b>	<b>Title</b>	<b>Page No.</b>
4.1	Network Parameters for fault classification and location identification	29
4.2	Training results for fault detection and classification	31
4.3	Training results for fault location identification	31
4.4	Fault classification and classification results	32
4.5	Fault detection and classification network performance	32
4.6	Fault Location Identification network performance	33
4.7	Performance of function Approximation network for fault location identification	33
